Lubrication & Fuel Transfer Equipment

Company Profile

STM Australia Pty Ltd is an Australian owned company that manufactures and markets Lubrication and Workshop Equipment.

Our Lubrication and Workshop Equipment consists of Hand, Air and Electric Operated Pumps for use with liquid fuels and lubricants as well as providing other accessories including Hose Reels, Oil Meters, Fuel Nozzles and Greasing Equipment. STM aims to provide its customers with quality and reliable products, setting delivery standards above our competitors.

STM positioned itself as a prominent company in 1952 when it produced its first screwthread to today becoming one of Australia's leading manufacturer and distributor of Lubricant Dispensing Equipment.

STM's success has not happened by chance. Our positive attitude, Engineering Excellence, and our ability to incorporate new and innovative design methods have placed STM products in high demand, allowing us to extend our markets here and overseas.

Our Head Office and manufacturing is located in Melbourne, Victoria Australia with sales offices in Sydney, Brisbane, Adelaide, Perth, and Auckland supported by regional stockists and distributors throughout rural Australia and New Zealand.

STM have certainly come a long way since those early screwthread days, foreseeing the sophisticated future needs of our industries. We look forward to meeting and exceeding all the challenges that lie ahead of us.

Oil Transfer Pumps

1 Litre Tom Thumb Oil Pump

MODEL CA586

- 1 litre top up utility pump
- Ideal for hard to get to oiling points
- 10ml per stroke
- Suitable for oils, ATF and brake fluid
- Typically used for: Outboard and two stroke motors, chain saws, motor vehicles and odd jobs around the home

Product Features:

- Integrated carry handle
- 500mm long PVC hose and spout
- Aluminium construction
- Nylon head and handle
- Nozzle drain back holder

Nozzle Holder

Stops oil leaking from the spout. Nozzle drain back holder

Carry Handle

Easy mobility

Downstroke Action

Easy pumping with a spring operated return.

20 Litre Gear Oil Pump

MODEL CA465G2

- Easy down stroke displacement
- Approximately 14 strokes per litre
- Suitable for gear oil, engine oil and hydraulic oil
- 1.5 metre anti-kink hose
- Fitted with anti-drip nozzle and drain back nozzle holder
- Ground shaft with 'O' ring seal
- Nylon head and handle
- Special threaded adaptor designed and engineered to suit most plastic and metal drums
- Telescopic extension
- Suitable for rieke adaptor (CB274 series - page 16)
- 2 year warranty

Telescopic Tube

Find the depth of the drum with ease to draw the last drop of oil

O'ring Seal

Unique design to allow suction tube to seal properly

Nozzle Holder

Drainback hole fitted with o'ring that secures spout to prevent unwanted moisture, dust and dirt contaminating the oil

20 Litre Hand Pumps

20 Litre Spring Operated Oil Pump

MODEL CA480G

- Approximately 3.5 strokes per litre
- Unique spring actuated displacement
- 1.5 metre anti-kink hose
- Lever operated trigger nozzle and drain back nozzle holder
- Die cast head
- Replaceable gland packing seal
- 2¼" (57mm) 8 TPI bottle thread adaptor
- Australian made
- 2 year warranty

20 Litre ATF Pump

MODEL CA465ATF2

- Easy downstroke displacement
- Approximately 14 strokes per litre
- 1.5 metre anti-kink hose
- Fitted with anti-drip nozzle and drain back nozzle holder
- Ground shaft with 'O' ring seal and telescopic extension
- Nylon head and handle
- Special threaded adaptor designed and engineered to suit most plastic and tin plate drums
- Replaceable stainless steel mesh filter (100 x 41 SWG) which prevents contamination of system
- 2 year warranty
- Optional: Rieke drum thread adaptor to suit different drums (page 16)

20 Litre Spring Operated ATF Pump

MODEL CA480AFT

- Approximately 3.5 strokes per litre
- Unique spring actuated displacement
- 1.5 metre anti-kink hose
- Fitted with lever operated trigger nozzle and drain back nozzle holder
- Replaceable stainless steel mesh filter (100 x 41 SWG) which prevents contamination of system
- Replaceable gland packing seal
- 2¼" (57mm) 8 TPI bottle thread adaptor
- Australian made
- 2 year warranty

20 Litre Coal Mining Oil Pump

MODEL CA465GCM2

- For underground mining use
- Easy downstroke displacement
- Approximately 14 strokes per litre
- 1.5 metre anti-kink hose
- Fitted with anti-drip nozzle and drain back nozzle holder
- Ground shaft with 'O' ring seal
- Nylon head and handle
- Special threaded adaptor designed and engineered to suit most plastic and tin plate drums
- Telescopic extension
- 2 year warranty

20 Litre Hand Pumps

20 Litre Brake Fluid Pump

MODEL CA478BF

- Approximately 10 strokes per litre
- Durable hose suitable for brake fluid & drain back nozzle holder
- Special pump head design to prevent contamination of fluid
- Nylon head and handle
- Replaceable gland packing seal
- Stainless steel shaft
- Up stroke action
- 2¼" (57mm) 8 TPI bottle thread adaptor
- Australian made
- 2 year warranty

20 Litre Spring Operated Ratio Pump

MODEL CA485

- Two stroke oil dispensing pump with variable stroke
- Unique spring actuated displacement
- 3 preselected ratios per 5 litres as follows:
24 (209ml), 32 (156ml), 50 (100ml)
- 400mm anti-kink hose
- Fitted with anti-drip nozzle and drain back nozzle holder
- Diecast head and ground shaft with gland packing seal
- 2¼" (57mm) 8 TPI bottle thread adaptor
- Australian made
- 2 year warranty

20 Litre Multi Purpose Pump

- Up stroke action
- Nylon head and handle
- Replaceable gland packing seal
- Suitable for light oils, petrol, kerosene, thinners and solvents
- 2¼" (57mm) 8 TPI thread adaptor
- 2 year warranty
- Australian made

MODEL	CA478	CA476
Strokes per litre	10	10
Drum application	20 litre drum	20 litre drum
Construction	Stainless steel shaft & spout	Stainless steel shaft & spout
Hose	1.5 metre anti-kink hose	-
Nozzle	Yes	-
Nozzle drain back holder	Yes	-

60 Litre Hand Pumps

20 Litre Chemical Pump

MODEL DANZ255

- Suits 20 to 25 litre container
- Made from polypropylene
- Anti pumping child safety device fitted
- 5 container cap fittings available
- Suitable for pumping cleaning chemicals - chlorine based products, liquid fertiliser and crop chemicals
- Output per stroke: approximately 180ml
- Not suitable for highly flammable liquids

60 Litre Gear Oil Pump

MODEL CA467G2

- Easy down stroke displacement
- Approximately 14 strokes per litre
- 1.5 metre anti-kink hose
- Fitted with anti-drip nozzle and drain back nozzle holder
- Ground shaft with 'O' ring seal
- Nylon head and handle
- 2" bung thread
- 2 year warranty

60 Litre Spring Operated Oil Pump

MODEL CA469G

- Approximately 2 strokes per litre
- Unique spring actuated displacement
- 1.5 metre anti-kink hose
- Lever operated trigger nozzle and drain back nozzle holder
- Die cast head
- Ground shaft with 'O' ring seal
- 2" bung thread
- Australian made
- 2 year warranty

60 Litre ATF Pump

MODEL CA467ATF2

- Easy down stroke displacement
- Approximately 14 strokes per litre
- 1.5 metre anti-kink hose
- Fitted with anti-drip spout and drain back nozzle holder
- Ground shaft with 'O' ring seal
- Replaceable stainless steel mesh filter (100 x 41 SWG) which prevents contamination of system
- 2" bung thread
- 2 year warranty

60 Litre Hand Pumps

60 Litre Spring Operated ATF Pump

MODEL CA469ATF

- Approximately 2 strokes per litre
- Unique spring actuated displacement
- 1.5 metre anti-kink hose
- Fitted with lever operated nozzle and drain back nozzle holder
- Replaceable stainless steel mesh filter (100 x 41 SWG) which prevents contamination of system
- Ground shaft with 'O' ring seal
- 2" bung thread
- Australian made
- 2 year warranty

60 Litre Multi Purpose Pump

- Up stroke action
- Nylon head and handle
- Replaceable gland packing seal
- Suitable for light oils, petrol, kerosene, thinners and solvents
- 2" bung thread
- Australian made
- 2 year warranty
- 1.5 metre anti-kink hose and nozzle drain back holder (model no. CA 479)

MODEL	CA479	CA477
Stroke per litre	10	10
Drum application	60 litre drum	60 litre drum
Construction	Stainless steel shaft	Stainless steel shaft
Hose	1.5 metre anti-kink hose	-
Nozzle	Yes	-
Nozzle drain back holder	Yes	-

205 Litre Fuel Hand Pump

MODEL DA404

- High Flow up to 40 litres per minute
- 1 litre per stroke
- Suitable for diesel, petrol, kerosene and light oils up to SAE 30
- Lever action
- Solid aluminium construction with steal suction pipe
- Steel suction pipe and foot strainer
- Lockable handle
- Suitable for 60 and 205 litre drums

205 Litre Hand Pumps

DA01JW216

DA01JW214

205 Litre Rotary Pump

- Rotary action
- 3 piece steel suction pipe
- Suitable for motor oil & diesel
- 2" bung adaptor
- Not recommended for gear oil or petrol

MODEL	DA01JW216	DA01JW214
Revolutions per litre	3	3
Drum application	60 or 205 litre drum	60 or 205 litre drum
Hose length	1.5 metre	-
Nozzle	Yes	-
Construction	Solid cast iron	Solid cast iron

205 Litre Lever Oil Pump

MODEL DA2690

- Approximately 3 strokes per litre
- Lever action
- Light weight aluminium construction
- Swivel non-drip spout
- Telescopic suction pipe
- 2" bung thread

205 Litre Heavy Duty Lever Oil Pump

MODEL DA495

- Heavy duty lever action pump
- Approximately 400ml per stroke
- Zinc diecast construction
- Multi-directional handle
- Telescopic suction pipe
- 2" bung thread
- Swivel non-drip spout

205 Litre Hand Pumps

205 Litre Lever Oil Pump

MODEL DA826

- Approximately 2 strokes per litre
- Lever action
- Solid die cast construction
- Telescopic suction pipe
- Non-drip spout as shown or spout for hose diameter 3/4"
- 2" bung thread

DA492

205 Litre Lever Oil Pump

- Lever action
- Variable handle setting for various viscosity fluids
- Built in drum bung opener on pump head
- Telescopic suction tube suitable for 60 and 205 litre drums

DA491

MODEL	DA492	DA491
Stroke per litre	4	4
Drum application	60 or 205 litre drum	60 or 205 litre drum
Construction	Diecast head	Diecast head
Hose	Transparent 1.5 metre anti-kink hose	-
Nozzle	Yes	-

205 Litre Plastic Syphon Pump

MODEL DA606

- Plastic syphon pump
- Approximately 4 strokes per litre
- Lightweight Polyethylene
- Suitable only for some solvents and chemicals
- Check with STM for solvent compatibility data

205 Litre Hand Pumps

205 Litre Multi Purpose Pump

- Lever action
- Lightweight and economical
- Telescopic suction tube suitable for 60 and 205 litre drums

MODEL	DJPP200LP	DJPPS200LP	DJRST200LP	DJTS200LP
Strokes per litre	4	4	4	4
Construction	Polypropylene	Polypropylene	Ryton	Teflon
Shaft	Plated steel	Stainless steel	Stainless steel	Stainless steel
Teflon component	-	-	-	Yes
Suitable for:				
Lubrication oils	Yes	Yes	Yes	Yes
Petrol	Yes	Yes	Yes	Yes
Diesel	Yes	Yes	Yes	Yes
Some chemicals	Yes	Yes	Yes	Yes
Alcohol	Yes	Yes	Yes	Yes
Kerosene	Yes	Yes	Yes	Yes
Engine coolant	Yes	Yes	Yes	Yes
	Yes	Yes	Yes	Yes
Water based chemicals	-	Yes	Yes	Yes
Acid	-	Yes	Yes	Yes
Alkaline solutions	-	Yes	Yes	Yes
Water	-	Yes	Yes	Yes
Nitric acid	-	-	Yes	Yes
Aggressive liquids (check a compatibility chart)	-	-	-	Yes

205 Litre Hand Pumps

205 Litre Plastic Rotary Pump

- Rotary action
- Lightweight
- 3 piece suction pipe
- 2" bung adaptor
- Outlet rotatable 360°

DJPP200RP

DJR200RP

MODEL	DJPP200RP	DJR200RP
Revolutions per litre	3	3
Construction	Polypropylene	Ryton
Suitable for:	Acid, alkaline etc.	Aggressive chemicals
Acid	Yes	Yes
Alkaline	Yes	Yes
Alcohol	Yes	Yes
UREA/DEF	Yes	Yes
Some chemicals	Yes	Yes
Diesel	Yes	Yes
Water	Yes	Yes
Machine oil	Yes	-
Thinners	-	Yes

205 Litre Chemical Pump

MODEL DANZ20050

- Suits 100 to 205 litre container
- Approximately 400ml per stroke
- Made from PVC and polypropylene
- Easy pumping action - only 2 moving parts
- Anti pumping/child safety device fitted
- 4 drum attachment fittings available
- Suitable for pumping cleaning chemicals - chlorine based products, liquid fertiliser and crop chemicals
- Not suitable for highly flammable liquids

205 Litre Hand Pumps

205 Litre Stainless Steel Chemical Pump

MODEL DA300316

- Approximately 2 strokes per litre
- Lift action
- 316 Stainless steel body to suit more corrosive liquids
- Teflon seals
- Ideal for transferring soluble, corrosive, volatile and aggressive chemicals and medium viscosity petroleum based fluids
- 2" bung adaptor

205 Litre Stainless Steel Chemical Pump

MODEL DA490S

- Approximately 3 strokes per litre
- Lever Action
- 304 Stainless steel body
- Teflon seals
- Ideal for transferring soluble, corrosive, volatile and aggressive chemicals and petroleum based fluids
- 180° rotating spout
- Telescopic suction tube
- 2" bung thread

205 Litre Rotary Pump

- Rotary action
- 3 piece steel suction pipe
- Suitable for motor oil, diesel & petrol
- 2" bung adaptor

MODEL	DARP80H	DARP80
Revolutions per litre	3	3
Drum application	60 or 205 litre drum	60 or 205 litre drum
Hose length	1.5 metre	-
Nozzle	Yes	-
Construction	Aluminium	Aluminium

205 Litre Hand Pumps

205 Litre High Flow Rotary Pump

- Rotary action
- Solid aluminium construction
- 2 piece steel suction tube and foot strainer
- Suitable for diesel, petrol and oils up to SAE 30
- 2" bung adaptor
- DA02LP32FA - Equipped with 10 micron filter and clear bowl with water displacement valve (DBNS10)

MODEL	DA02LP32	DA02LP32HA	DA02LP32FA
Revolutions per litre	1	1	1
Drum application	60 & 205 litre drum	60 & 205 litre drum	60 & 205 litre drum
Hose	Plastic hose	Rubber hose with reinforced springs	Rubber hose with reinforced springs
Hose length	2 metre	2 metre	2 metre
Nozzle	-	Yes	Yes
Construction	Aluminium	Aluminium	Aluminium
Fuel filter (DBNS10)	-	-	Yes

Suction Gun & Oil Can

Oil Suction Gun

- 500ml transfer suction pump with durable plunger
- One way / Two way hose for suction and discharge of fluids
- Also for draining oils and other fluids
- Self priming & easy to operate
- Ideal for farm, automotive, home and factory use
- Suitable for diesel, oil, brake fluid, ATF, Power steering fluid and coolant
- DKCO-502 - Durable check valve ideal for emergency fuel transfer directly from one vehicle to another

MODEL	DKCO-501	DKCO-502
Capacity	500ml	500ml
Hose outlets	One way	Two way
Hose length	500mm	750mm
Check valve	-	Yes
Construction	Aluminium	Aluminium

Oil Can

- 500ml oil can
- Easily lubricate machinery
- Great for around the home or on the farm

MODEL	DO51371	DO51370
Capacity	500ml	500ml
Spout	Rigid	Flexible
Construction	Metal	Metal

Hand Cleaner Pumps

Tom Thumb Hand Cleaner Pumps

- Up stroke action
- Lightweight
- Australian Made
- Suitable for 5 - 20 litre containers
- Nylon head and handle
- Contact STM for custom sizes

MODEL	Drum Application	Adaptor	Adaptor Type	Material Showing	Container Depth	Construction
CA574	4 Litre container	1¼"	Plastic	186mm	194mm	Aluminium
CA574N	2.5 Kg container	1¼"	Plastic	170mm	187mm	Aluminium
CA575	20 Litre container	1¼"	Plastic	331mm	350mm	Aluminium
CA576	20 Litre container	2¼"	Tin lid	363mm	380mm	Aluminium
CA578	20 Litre container	1½"	Plastic	272mm	350mm	Stainless steel
CA599	20 Litre container	58mm	Plastic	326mm	325mm	Stainless steel

Extension Tube

MODEL CB465T

- Plastic extension tube
- Used to find the depth of the drum to draw every last drop of fluid
- Provides an extra 110mm length to pump
- Fits 20 & 60 litre hand pumps with 25mm diameter suction tube

20 Litre Rieke Snap On Drum Adaptor

MODEL CB274S

- 20 Litre drum adaptor to suit containers with no thread on closure
- Female snap on opening of 40mm
- Male Thread 2¼"
- Available in Blue only

20 Litre Rieke Drum Thread Adaptors

- 20 Litre rieke drum thread adaptor
- Easily adapts to various 20 litre drums
- Available in various sizes
- Single & 2 start threads
- Different colours to easy identify

Air Operated Oil Transfer

Equipped with Lubricator

1:1 Air Operated Oil Pump

- Suitable for oil bars, 205 litre drums and bulk tanks
- Air operated for integration into transfer system
- Smart design with fewer parts for less pump wear offering long life
- Differential air motor ensures smooth pumping
- Typical fluids handled include motor oil, synthetic oil, hydraulic oil, automatic transmission fluid and coolant
- Suitable for oil up to SAE 120
- Supplied with adjustable 2" bung adaptor
- Not suitable for pumping distances of more than 6 metres when reasonable volume is required

Air Operated Oil Transfer

Equipped with Lubricator

3:1 Air Operated Oil Pump

- Suitable for pumping through medium sized hose reel systems when one or two hose reels are required
- Air operated for integration into transfer system
- Long pumping life, easy to operate and maintain
- Smart design with fewer parts for less pump wear
- Differential air motor ensures smooth pumping
- Typical fluids handled include motor oil, synthetic oil, hydraulic oil, gear oil, automatic transmission fluid and coolant
- Suitable for oil up to SAE 150

Air Operated Oil Transfer

5:1 High Volume Air Operated Oil Pump

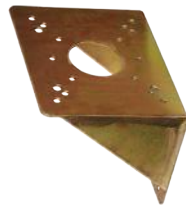

- Suitable for oil transfer in high volume and long distance applications such as truck shop service fleet facilities and in-plant applications
- Corrosion resistant design utilizes liquid salt nitriding, nickel plating, stainless steel, aluminium and chrome on key components for longer life
- Few moving parts in the air motor assembly means less downtime and low repair cost
- Large air porting design provides efficient use of compressed air supply for continuous pump operation without icing
- Typical fluids handled include motor oil, synthetic oil, hydraulic oil, gear oil, automatic transmission fluid and coolant
- Suitable for oil up to SAE 240
- Supplied with adjustable 2" bung adaptor

Application	Stub
Pressure ratio	5:1
Working pressure	70-180psi
Air consumption	@115psi 21.6 CFM
Max flow rate (per min)	40 litres
Suction tube diameter	54mm
Suction tube length	270mm
Air inlet connection	¼" BSP Female
Oil outlet connection	¾" BSP Female
DITIET20670 - Optional	670mm suction tube to suit 205 litre drums
DITIET20920 - Optional	920mm suction tube to suit 1000 litre IBC tanks

Air Operated Oil Transfer

1:1 Air Operated Oil Pump Bar

- A faster more efficient alternative for transferring oils from 205 litre drums
- Ideal for filling oil jugs or bottles
- Foot valve and strainer fitted to suction pipe
- Fitted with regulator, gauge, ½" oil tap and on/off air cock
- CK602 - Optional drip tray to support oil jug (DIT118980011)
- CK602 - Can be optioned as wall mounted type, contact STM for details

Air Operated Oil Transfer

Wall Mounted Transfer Kit

- Wall mounted kit
- Suitable for dispensing oil to mobile installations with optional hose and nozzle or directly through hose reels
- Supplied with all required fittings and accessories for connection of pump to the air and from tank to pump
- Rigid suction tube with 2 metre hose assembly

Optional:

- To make suction tube longer use DITIET10200 or DITI10500 in conjunction with DITIET10001 and DITIET10003
- If longer suction hose is required then will need DITIWB10004, DITIWB10002, hose clips YS295-040 and hose DITIPVC25

Air Operated Oil Transfer

1:1 Air Operated Oil Pump Kit

MODEL DITI1701003KIT

Equipped with
Lubricator / Regulator

MODEL DITIDM10002
Meter option available

- Complete kit for oil transfer from 205 litres drums
- Typical fluids handled include motor oil, synthetic oil, hydraulic oil, automatic transmission fluid and coolant
- Equipped with delivery hose, oil control gun and air regulator/filter/lubricator
- Adjustable 2" bung adaptor

MODEL	DITIDM1002
Flow rate	1-35 LPM

Portable Oil Transfer Kits

Equipped with Lubricator

3:1 Air Operated Portable Oil Transfer Kit

- Portable unit for 20, 60 & 205 litre drums
- Suitable for dispensing oil at medium viscosity up to SAE 150 for mobile applications
- Drum trolley with heavy duty wheels and castors ensures high mobility and efficiency
- Standard model composed of 3:1 pump, trolley, digital oil meter with nozzle and 4 metres of connection hose
- Supplied with adjustable 2" bung adaptor

Power	750 watt	750 watt	1100 watt

12 Volt DC Oil Pump

MODEL DITI17520100

- Flow rate of 10 litres per minute
- Viscosity up to 500Cst
- Sintered steel gears, bypass valve incorporated in pump body
- IP55 protection class motor
- 2 Metre suction height
- 3/4" BSP inlet/outlet

Pneumatic Oil Dispenser

MODEL DITIPOD065

- Pneumatic oil dispenser equipped with level gauge and delivery gun with flexible end
- Suitable for filling or topping up
- Filled with oil (to 80% capacity) and pressurised with air at 7-8 bar, they work autonomously anywhere and don't require continuous air connection
- Comes with anti splash funnel

Tank capacity	65 litres
Maximum working pressure	145psi
Gun length with flexible hose	478mm
Hose length	2 metres
Air inlet connection	1/4" BSP female

Oil Tank Transfer Systems

IBC Oil Tank Station

MODEL DOTIBCKIT2

- Suitable for IBC 1000 litre oil storage unit
- Comprises of 3:1 air operated oil pump, hose reel, digital oil nozzle and drip tray
- Can be optioned with other various items than below to suit your needs

• IBC tank not included

MODEL	DITIIBCKIT
Tank capacity	1000 litre
KIT BREAKDOWN	
3:1 Air operated oil pump	DITI1701033
Digital oil nozzle	DITI1781501
Hose Reel - 15m x ½" hose	DITIM860154
Drip tray	DITIDT10001
Top bracket	DITI19808102
Side bracket	DITI19808101
Hose assembly	DITI1763405
Top extension connection	DITIET10001
Extension tube	DITIET10200
Extension foot connection	DITIET10003

Uni Tank Oil Station

MODEL DOTUNIKIT

- Comprises of 3:1 air operated oil pump, double skin oil storage tank, hose reel, digital oil nozzle and drip tray
- HDPE internal with zinc coated sheet external
- Visual leakage indicator & filling level indicator
- Can be optioned with 750 or 1500 litre tank or other various items to suit your needs

MODEL	DOTIBCKIT
Tank capacity	1000 litre
Dimensions	1280mm x 770mm x 1420mm
KIT BREAKDOWN	
3:1 Air operated oil pump	DITI1701033
Digital oil nozzle	DITI1781501
1000 litre tank	DOT7380
Hose Reel - 15m x ½" hose	DITIM860154
Drip tray	DITIDT10001
Universal bracket	DUB001
Hose assembly	DITI1763405
Top extension connection	DITIET10001
Extension tube	DITIET10200
Extension foot connection	DITIET10003

Oil Transfer Accessories

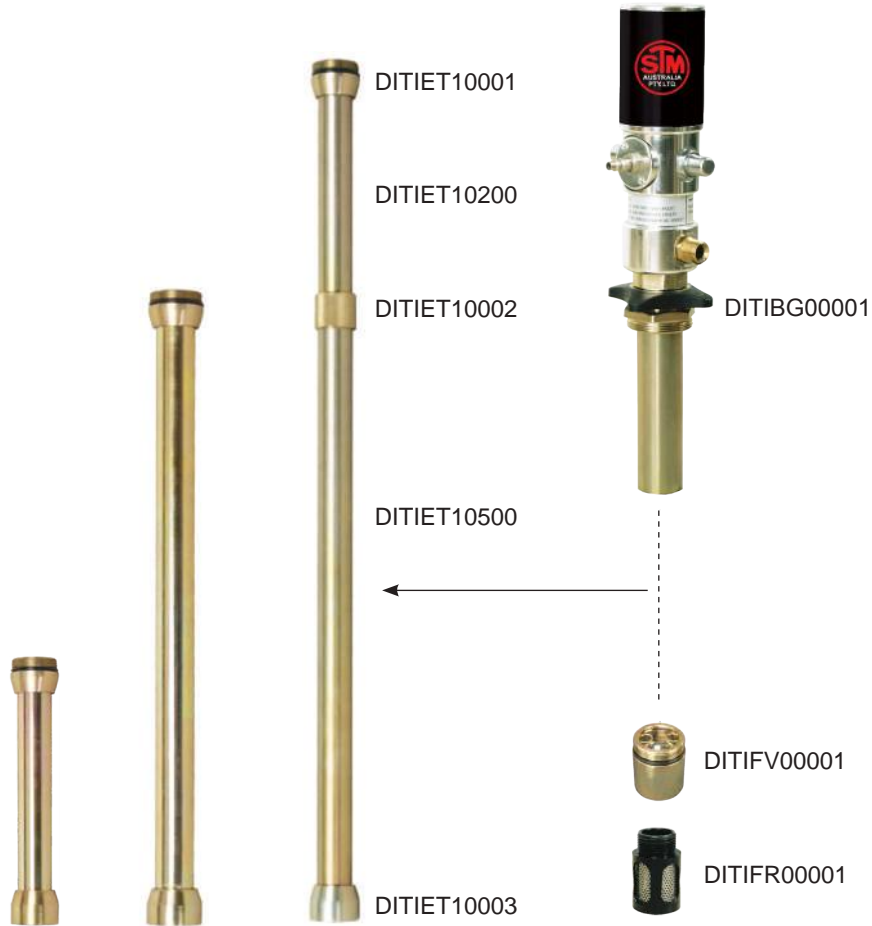

Pressure Relief Valve

MODEL DIT19572501

- Pressure range 70-730psi (5 to 50 bar)
- ½" BSP
- Protects pipe work, fittings and outlet guns from high pressures caused by incorrect air pressure or thermal expansion
- Offers in-line relief and can be fitted directly onto the outlet of pump
- Recommended for applications using oil pipe distribution networks or when using 3:1 or higher air operated pumps
- Also Available: Pressure Relief Valve 3/4 Outlet - DIT19572511

Extension Tube & Accessories

MODEL	DESCRIPTION
DITIET10001	Top extension connection - M40 x 1.5 thread
DITIET10200	Extension tube - 200mm

Diaphragm Pumps

Air Operated Double Diaphragm Pump

- Air operated diaphragm pump to transfer high volumes of fluids from drums or tanks
- Suitable for oil, diesel, coolant, ATF, waste oil and water
- Heavy duty construction with ground capability to eliminate static discharge
- Both metal & plastic bodies are available
- Maximum diameter solid: 1/8"
- A variety of elastomer options including Buna-N (Nitrile), Viton, EPDM & PTFE are available to meet abrasion, temperature and chemical compatibility concerns
- Viton, EPDM & PTFE are available on request
- DIT117150600 & DIT117150601 - 3/4" inlet/outlet, also supplied with 1/2" reducer

Diaphragm Pumps

Air Operated Diaphragm Pump Kit

MODEL DQBYKIT

- Air operated diaphragm pump kit to transfer high volumes of fluids from drums or tanks
- Ability to quickly and easily move pump from one drum to another as it sits in a 2" bung hole and doesn't need to be screwed in
- Suitable for oil, diesel, coolant, ATF, waste oil and water
- High flow rate of up to 90 litres per minute
- Kit composed of 1" diaphragm pump, manual nozzle, 4 metres of connection hose, steel suction tube, camlock fittings for easy dismantling & storage and air regulator

KIT BREAKDOWN	MODEL
Diaphragm pump	DIT117151200
Manual nozzle	DKSK9151A
Hose assembly (4 metres)	DKSK19138401
PVC suction tube	CB285-6
Elbow	YS60725-16
Air regulator	DIT1AR2000
Coupling (QTY: 2)	STPC25-D-AL
Dust plug (QTY: 2)	STPC25-DP-AL
Dust cap (QTY: 2)	STPC25-DC-AL
Adaptor (QTY: 2)	STPC25-F-AL

Air Operated Rotary Pump

MODEL DO31221

- Air operated rotary pump
- Aluminium motor, stainless steel casing, viton gaskets, and PTFE gears
- ¼" ball valve included
- Suction head up to 2 metres
- Suitable for a variety of chemicals (check with STM for chemical compatibility)

Application	Chemicals
Working pressure	25 - 100psi
Max flow rate per minute	10 litres
Air inlet	¼" BSP Female
Inlet/outlet	½"

Hose Reels

Oxy-Acetylene Hose Reel

MODEL DB320D150P300

- Heavy duty steel construction with corrosion resistant powder coating
- Full flow swivel joint and swivel body are made from drop forging brass
- Double 'O' ring sealed design prevents leakage
- Swivel body and inlet are both permanently identified with machined grooves on the acetylene side to assure proper installation
- Multiple mounting positions for flexibility
- Hose conforms to Australian standards AS1335-1995

Application	Oxy-Acetylene
Inlet	3/8" x 18 UNF, left & right threads
Maximum pressure	300psi
Hose I.D	5mm
Hose length	15 metres

Heavy Duty Hot Wash Hose Reel

MODEL DIRS4153

- Spring driven double arm hose reel
- Heavy duty construction for long life in industrial and automotive applications
- High quality impact resistant ABS drum
- Arm and bracket in 304 stainless steel
- Wall, ceiling or floor mounted

Application	Hot Water
Inlet/Outlet (fitting)	3/8"
Maximum pressure	2900psi
Hose I.D	3/4"
Hose length	15 metres

Hose Reels

ABS Drum Hose Reel

- Spring driven double arm hose reel
- Designed to transfer oil, grease, water and air
- High quality impact resistant ABS drum
- Heavy duty carbon steel arm and bracket in corrosion resistant powder coating
- Comes with 1.5 metre inlet hose
- Wall, ceiling or floor mounted

MODEL	DIRA3152	DIRA1153	DIRA2154
Application	Grease	Air & water	Oil
Inlet/Outlet (fitting)	¼"	¾"	½"
Maximum pressure	5000psi	300psi	2000psi
Hose I.D	¼"	¾"	½"
Hose length	15 metres	15 metres	15 metres

Oil & Fuel Hose Reel

- Designed for industrial application where longer hose is required
- Constructed with heavy-duty powder coated steel
- Easy to install and maintain
- Conveniently keeps hose organized for a more efficient work area
- Transfer media: fuel & oil

MODEL	DITIHRM808106
Application	Oil, diesel & petrol
Inlet/Outlet (fitting)	¾"
Maximum pressure	1250psi
Hose I.D	¾"
Hose length	10 metres

Large Capacity Hose Reel

- Double arm hose reel
- Large reeling capacity
- Heavy duty steel construction with corrosion resistant powder coating
- Spring fully enclosed and lubricated
- Four-direction non-snag hose rollers reduce hose wear
- Guide arm adjustable, floor mount
- Multi-position ratchet lock and easy tension adjustment

MODEL	DITIM880304	DITIM880206	DITIM880158
Application	Oil, water & diesel	Oil, water & diesel	Oil, water & diesel
Inlet/Outlet (fitting)	½"	¾"	1"
Maximum pressure	2000psi	1250psi	1000psi
Hose I.D	½"	¾"	1"
Hose length	30 metres	20 metres	15 metres

Hose Reels

Heavy Duty Enclosed Hose Reel

- Heavy duty construction
- Designed to transfer oil, grease, water and air
- Compact size and easy installation
- Spring tension easily adjustable from the outside
- Four direction non-snap rollers reduce hose wear abrasion
- Mounting bracket can be repositioned for varied application

MODEL	DITI29509152R2	DITI29507153R	DITI29508154R1
Application	Grease	Air & water	Oil
Inlet/Outlet (fitting)	¼"	¾"	½"
Maximum pressure	5000psi	300psi	2000psi
Hose I.D	¼"	¾"	½"
Hose length	15 metres	15 metres	15 metres

Heavy Duty Enclosed Oil Hose Reel

MODEL DIRC2094

- Heavy duty construction with steel spring driven hose reel
- Carbon steel drum, arm and bracket in corrosion resistant powder coating for long lasting
- Suitable for the industrial and automotive environments
- Compact in size and easy installation
- Can be mounted to the ceiling, wall or floor
- 2000psi max working pressure
- 9 meter hose length
- 2 meter leading hose length

MODEL	DIRC2094
Application	Oil
Inlet/Outlet (fitting)	½"
Maximum pressure	2000psi
Hose I.D	½" BSP
Hose length	9 metres

Hose Reels

Heavy Duty Hose Reel

- Double arm steel hose reel
- Simple construction for easy installation
- Spring locates in the middle to ensure stability of the reel
- Four-direction non-sag hose rollers reduce hose wear
- Adjustable arm guide (wall, floor, ceiling and pit)
- Elegant appearance
- Special swivel joint for easy maintenance and repair
- Ball bearing swivel joint structure, largely reducing the friction between swivel spool and swivel body

MODEL	DITIH860152	DITIH860153	DITIL860153	DITIM860154
Application	Grease & oil	Grease	Air & water	Oil & water

Hose I.D	¼"	¾"	¾"	½"
Hose length	15 metres	15 metres	15 metres	15 metres

Hose Reel Pivot Bracket

- Wall bracket for mounting hose reels
- 140° wall bracket for mounting hose reels
- For 860, ABS & Oxy-Acetylene hose reels
- Steel construction

DITIBR0106

MODEL	DITIBR0106
Application	860 Series
Suitable for the following reels	DITIH860152
	DITIH860153
	DITIL860153
	DITIM860154

Digital Oil Control Guns

Digital Oil Control Gun

- Suitable for motor oil, gear oil, automatic transmission fluid (ATF)
- Durable and lightweight
- Measures in litre, gallon, pint and quart
- 5 digit easy to read LCD display, with low battery indicator
- Resettable for daily, weekly and lifetime dispense reports
- Equipped with swivel & strainer

Maximum pressure	1000psi
Precision	±0.5%
Spout	Flexible, automatic tip

Extra High Volume Digital Control Gun

- High flow up to 60 litres per litre
- Suitable for oil and diesel
- Durable and lightweight
- Measures in litres, gallons, pints and quarts (DIT18126005)
- 5 digit easy to read LCD display, with low battery indicator (DIT18126005)

DIT18116005

Nozzle Drip Tray

MODEL DITIDT10002

- Collect oil drops from nozzles for a clean and safe workshop
- Metal construction with powder coating paint
- Removable drip tray for easy emptying
- Large integral bracket for easy loading and unloading of hose and nozzle

• Meters not included

Oil Bar

MODEL DITI18711001

- Ideal system for fast dispensing of oil lubricants
- Supplied with one oil tap (when adding additional taps you will require MODEL DITI18711001E)
- Removable drip tray for easy emptying
- ½" BSP inlet
- Dimensions: 53cm (w) x 63cm (h) x 40cm (d)
- Suitable for up to 3 oil taps & 3 meters

Oil Hose Assemblies

- Oil hose SAE 100 R1
- Working pressure 2000psi
- Male thread fixed / female thread swivel

MODEL	Length	Inlet/Outlet	MODEL	Length	Inlet/Outlet

Fuel Transfer Pumps

12, 24 & 240 Volt Diesel Transfer Kit

- Simple and efficient for transferring fuel from the drum or tank in any situation
- 2" quick change coupling connection makes it easy to move from one drum to another
- Manual nozzle & swivel
- 4 metre delivery hose
- 2 metre telescopic steel suction tube
- Self priming pump with integral bypass
- Duty cycle: 30 minutes
- Not suitable for petrol
- DITI10304019 - Suitable for Bio-diesel
- DITI10305704, DITI10307600 - Extra heavy duty construction

Fuel Transfer Pumps

12 & 24 Volt Diesel Transfer Carry Kit

- Portable lightweight transfer pump
- Complete with manual nozzle, swivel, flexible suction hose and strainer
- Self priming pump with integral bypass, on/off switch and carrying handle
- Ideal for construction sites, boats and on the farm
- Duty cycle: 30 minutes
- Not suitable for petrol

Fuel Transfer Pumps

12, 24 & 240 Volt Petrol Transfer Kit

- Heavy duty portable petrol transfer pump for 205 litre drums and storage tanks
- Complete with nozzle, nozzle holder and bypass valve
- Suitable for petrol, diesel, light oils, etc.
- 2" bung thread & telescopic suction tube
- DTUTFR700VG suitable for automatic nozzle (DHU026838) and Flow meter (DTUTFR807CMK)
- DTUTSD12012 & DTUTSD2402 - suitable for automatic nozzle (DHU337015)

240 Volt Diesel Transfer Pump Station MODEL DMAETP60

- Self priming pump, with manual on/off switch
- Not suitable for petrol
- 4 digit flow metre
- Complete with integral bypass and built in strainer
- 1" BSP inlet
- Manual nozzle with 4 metres of delivery hose
- OPTIONAL: Automatic shut-off nozzle (DHUE159415), will require 3/4" x 1" BSP swivel (DKSK4110)

MODEL	Flow Rate	Voltage (V)	Nozzle	Delivery Hose
DMAETP60	60 LPM	240 Volt	Manual	4 metres

Fuel Transfer Pumps

240 Volt Diesel Pit Stop

- Complete with integral bypass and built in strainer
- Flow meter to measure fuel dispensing and total volume usage
- Nozzle holder that doubles as an on/off switch
- 1" BSP inlet/outlet
- Not suitable for petrol

MODEL	Fluid	Flow Rate	Voltage (V)	Meter	Nozzle	Delivery Hose

DIT110308003	Diesel	80 LPM	240 Volt	Mechanical	Automatic	4 meters

240 Volt Diesel Cabinet Pump

- Flow meter to measure fuel dispensing and total volume usage
- Italian manufactured and the body is fabricated entirely out of painted metal
- Nozzle holder that doubles as an on/off switch
- Self priming vane pump
- Easy to mount unit with mounting bracket fitted
- Inlet to unit 1" female BSP thread makes it easy to plumb
- Not suitable for petrol

MODEL	Flow Rate	Voltage (V)	Meter	Nozzle	Delivery Hose

240 Volt Diesel Management Pump

MODEL DOT8469

- Self priming pump complete with electric flow meter, automatic nozzle, 4 metres of filling hose, installed within a protective box
- Suitable for diesel and bio-diesel
- Diesel dispensing amounts can be preselected
- Up to 50 users
- Option of entering vehicle registration number and mileage
- Management of date and time of dispensing
- PIN-code access control as standard
- Optional key access control - 1 master key, 10 user keys, key reader with USB interface and PC software for wireless data transfer to the PC and PC software (DOT8706)
- Optional data transfer to PC by means of data transmission cable (DOT7890)
- Optional pedestal stand model DOT7888

MODEL	Flow Rate	Voltage (V)	Meter	Nozzle	Delivery Hose
DOT8469	70 LPM	240 Volt	Digital Meter	Automatic	4 meters

Fuel Transfer Tank System

Diesel Tank Transfer Kit

- Comprises of diesel transfer pump, double skin diesel storage tank, fuel nozzle and delivery hose
- High flow rate: 100 litre per minute
- Inside tank made of polypropylene
- Outside tank zinc coated steel sheet
- Integrated carry handles and fork lift raisers
- Leakage indicator and filling level indicator
- Not suitable for petrol
- Suitable for undercover storage
- Can be optioned with various other fuel transfer pumps to suit your needs

Mobile Diesel Transfer Kits

Mobile Diesel Transfer Tank Kits

- 100 - 1200 litre mobile diesel transfer tanks
- Equipped with 40 LPM, 12 volt pump kit
- Auto-shut off nozzle and swivel
- 6 metre delivery hose
- 4 meter power cable & earth strap
- Diesel grade polyethylene construction
- Strong poly lid to protect pump compartment
- Lockable fully enclosed pump compartment for protection and security
- Splash resistant breather
- Manufactured from specifically formulated diesel grade polyethylene that meets International Regulation ECE R34.01 requirements
- Optional - Higher volume pumps can be fitted

12 Volt Pump Kit

High flow 40 litres per minute, 6 metre delivery hose and automatic nozzle

Storage Tank

Strong construction, with lockable fully enclosed pump compartment

Ball Baffle System

Reduces fluid movement for improved load stability during transit. Fitted on 800, 1000 & 1200 litre models.

MODEL	Capacity	Dimensions	Flow Rate	Voltage (V)	Nozzle	Delivery Hose

Hose Reels

Large Capacity Hose Reel

- Double arm hose reel
- Large reeling capacity
- Heavy duty steel construction with corrosion resistant powder coating
- Spring fully enclosed and lubricated
- Four-direction non-snag hose rollers reduce hose wear
- Guide arm adjustable, floor mount
- Multi-position ratchet lock and easy tension adjustment

MODEL	DITIM880206	DITIM880158	DITIM880304
Application	Oil, water & diesel	Oil, water & diesel	Oil, water & diesel
Inlet/Outlet (fitting)	¾"	1"	½"
Maximum pressure	1250psi	1000psi	2000psi
Hose I.D	¾"	1"	½"
Hose length	20 metres	15 metres	30 metres

Oil & Fuel Hose Reel

- Designed for industrial application where longer hose is required
- Constructed with heavy-duty powder coated steel
- Easy to install and maintain
- Conveniently keeps hose organized for a more efficient work area
- Transfer media: fuel & oil

MODEL	DITIHRM808106
Application	Diesel, petrol & oil
Inlet/Outlet (fitting)	¾"
Maximum pressure	1250psi
Hose I.D	¾"
Hose length	10 metres

Fuel Flow Meters

In-Line Digital Diesel Flow Meter

MODEL DIT15221002

- Suitable for diesel and kerosene
- 5 digit easy to read digital LCD display
- Simple, reliable, compact & economical
- Easy to install either in line or at the end of the delivery hose
- Measures in litre, gallon, pint and quart
- Available in Aluminium or Plastic
- Also available: UREA/DEF Inline flow meter - DIT15221005

MODEL	Flow Rate	Max Pressure	Inlet/Outlet	Accuracy
DIT15221002	10-100 LPM	145psi	1" BSP	±0.5%

Mechanical Diesel Flow Meter

MODEL DIT1581400

- High capacity meter
- Reliable, easy to install and simple to calibrate in the field
- Suitable for diesel (not petrol)
- Large easy to read 4 digit display with 8 digit totaliser
- Ideal for gravity feed situations as well as use with electric pumps

MODEL	Flow Rate	Max Pressure	Inlet/Outlet	Accuracy
DIT1581400	20-120 LPM	50psi	1" BSP	±1%

Petrol Flow Meter

- Suitable for petrol, diesel, light oils, mineral spirits, heptane and hexane
- Large easy to read 3 digit display with 6 digit totaliser
- Weatherproof and corrosion resistant
- Ideal for gravity feed situations as well as use with electric pumps
- Not suitable for bleach, hydrochloric acid, ink, motor oil and salt water

MODEL	Flow Rate	Max Pressure	Inlet/Outlet	Accuracy
DTUTFR807CMK	19-76 LPM	50psi	¾" BSP	±1%
DTUT807CL1	19-76 LPM	50psi	1" BSP	±1%

Petrol High Flow Meter

- Suitable for petrol, diesel, light oils, mineral spirits, heptane and hexane
- Large easy to read 4 digit display with 8 digit totaliser
- Weatherproof and corrosion resistant
- Ideal for gravity feed situations as well as use with electric pumps
- Not suitable for bleach, hydrochloric acid, ink, motor oil, and salt water

MODEL	Flow Rate	Max Pressure	Inlet/Outlet	Accuracy
DTUT901L	19-151 LPM	50psi	1" BSP	±2%
DTUT901L1.5	19-151 LPM	50psi	1½" BSP	±2%

Manual Fuel Nozzles

Manual Fuel Nozzle

- Solid aluminium cast construction
- Brass swivel
- Suitable for gravity feed and electric pumps
- Built in spout hook

MODEL	Fluid Type	Inlet
DKSK9151A	Leaded/Diesel	1" BSP
DKSK9150	Unleaded	1" BSP

Plastic Manual Nozzle

MODEL DJ5115

- Polypropylene construction
- Suitable for fuel, water, solvents
- Built in spout hook
- 1" BSP brass inserted thread

Manual High Volume Fuel Nozzle

MODEL DHEA1250

- High flow rate of 0-260 litres per minute
- Light weight and easy to operate
- Solid aluminium cast construction with stainless steel spout
- Suitable for gravity feed and electric pumps
- 1½" BSP Inlet/Outlet

Automatic Fuel Nozzles

Automatic Fuel Nozzle

MODEL DMAMD20A1

- Automatic shut-off nozzle
- Suitable for petrol and diesel
- Flow rate up to 40 litres per minute
- Ideal for electric transfer pumps
- Fixed spout with hook
- Not suitable for gravity feed applications
- 3/4" BSP inlet

Automatic Fuel Nozzle

- Automatic shut-off nozzle
- Suitable for petrol and diesel
- Flow rate up to 60 litres per minute
- Not suitable for gravity feed applications

MODEL	Fluid Type	Inlet
DZHTDL11A	Leaded	3/4" BSP
DZHTDU11A	Unleaded	3/4" BSP

Automatic High Flow Fuel Nozzle

MODEL DHU026838

- Automatic shut-off nozzle
- Suitable for diesel
- High flow rate up to 100 litres per minute
- Full nozzle guard and lever cover
- Accu-Flo poppet allows accurate dispensing
- Not suitable for gravity feed applications
- 1" BSP inlet
- OPTIONAL: spout hook model number DKSK9193
- OPTIONAL: 1" to 1" swivel model number DKSK4115

Automatic Fuel Nozzle

MODEL DHU337015

- Automatic shut-off nozzle
- Suitable for petrol and diesel
- Flow rate of 65 litres per minute
- Suitable for 12 & 24 volt electric pumps
- Fixed spout with hook
- Strong and durable construction
- Not suitable for gravity feed situations
- 3/4" BSP inlet

High Volume Fuel Nozzles

Heavy Duty Automatic High Flow Fuel Nozzle

MODEL DMAMD120

- Heavy duty automatic shut-off nozzle
- Suitable for diesel
- High flow rate up to 120 litres per minute
- Full nozzle guard and lever cover
- Not suitable for gravity feed applications
- 1" BSP inlet

Truck Stop Fuel Nozzle

MODEL DHU173338

- Automatic shut-off truck stop nozzle
- Suitable for diesel
- High flow rate up to 280 litres per minute
- Valve shuts off when nozzle is horizontal or drops on to the ground
- Not suitable for gravity feed applications
- 1" BSP inlet
- OPTIONAL: 1" to 1" swivel model number DKSK 4115

High Volume Fuel Nozzle

MODEL DZHZZN1290

- Automatic shut-off nozzle
- Suitable for diesel
- High flow rate up to 240 litres per minute
- Right angle grip design provides larger lever area for better grip
- Dual poppets make it easy to open against high inlet pressure
- Not suitable for gravity feed applications
- 1½" BSP inlet

Super High Volume Fuel Nozzle

MODEL DHU169038

- Automatic shut-off nozzle
- Suitable for diesel
- High flow rate up to 450 litres per minute
- Dual poppets make it easy to open against high inlet pressure
- Extra large opening accommodates gloves
- Two position hold open latch and right angle design to fit close to walls or corners
- Not suitable for gravity feed applications
- 1½" BSP inlet

Fuel Transfer Accessories

Fuel Nozzle Hook

MODEL DKSK9193

- Plastic spout hook
- Allows easy storage of nozzles after use
- Required for automatic nozzles to fit to electric fuel pumps
- Suitable for automatic fuel nozzles (DHU026838)

Straight Swivel

- Straight swivel suitable for self serve applications
- To suit automatic fuel nozzles
- Brass construction with BSP threads

MODEL	Inlet	Outlet
DKSK4110	3/4" BSP Female	1" BSP Male
DKSK4115	1" BSP Female	1" BSP Male

Straight Swivel

- Straight swivel suitable for self serve applications
- To suit automatic fuel nozzles
- Aluminium construction with BSP threads

DMANS113	3/4" BSP Female	1" BSP Male
DMANS131	1" BSP Female	3/4" BSP Male
DMANS133	1" BSP Female	1" BSP Male

Universal Multi Plane Swivel

- Multi plane swivel designed for self serve applications
- Full 360° spherical rotation for easy movement
- High flow rate due to laminar flow design
- Double 'O' ring seals at each swivel to provide long life and low temperature performance
- High strength step shoulder bearing diameters and impact absorbing stops

MODEL	Inlet	Outlet
DHU3590	3/4" BSP Female	3/4" BSP Male
DHU3306	1" BSP Female	1" BSP Male

Fuel Transfer Accessories

Reconnectable Breakaway Valve

- Fuel stops on both sides of separation
- Separates under 90kg force reducing damage to equipment
- Internal pressure balancing chamber prevents line shock nuisance separations
- Retains UL listing even after separation and reconnection
- Unit quickly and easily snaps back together after separation

MODEL	Inlet	Outlet
DHU3385	3/4"	3/4"
DHU3076	1"	1"

Breakaway Valve

MODEL DHU2774

- Non reconnectable breakaway valve
- Unit is lightweight, inexpensive and disposable
- Separates under 113 kg force reducing damage to equipment
- Instant closing butterfly valve design
- Stops flow on both sides of separation
- 3/4" BSP thread

High Flow Fuel Nozzle Accessories

- Suitable for fuel nozzle DHU026838
- Other colours available on request

MODEL	Description
DHU5215	Spout assembly without thread (new style)
DHU0740	Spout assembly with thread (old style)
DHU0554	Full grip guard (green)
DHU1807	Waffle guard (green)
DHU2574	Trigger cover

Truck Stop Fuel Nozzle Accessories

- Suitable for fuel nozzle DHU173338
- Other colours available on request

MODEL	Description
DHU2279	Spout assembly
DHU4740	Full grip guard (green)
DHU1808	Waffle guard (green)
DHU2573	Trigger cover

Fuel Transfer Accessories

Fuel Filter

MODEL DBNS10

- Fuel filter & bowl
- Durable weather and rust resistant unit for fuel tanks and diesel pumps
- 1" BSP ports
- Low cost replacement filters
- 10 micron filter
- Valve for water removal
- Transparent polycarbonate bowl
- Replacement filter DBNS20

Filter Kit - DBNS20

Brass Barb Tail

- Suitable for 3/4" & 1" hose
- Barb tails with 'O' ring seal
- Not sui with DBNS10 filter (model DBN2525 is suitable)

MODEL	Inlet	Outlet
DKSK9142	3/4" BSP	3/4" BSP
DKSK9143	1" BSP	3/4" BSP

UREA/DEF IBC Pump Systems

UREA/DEF IBC Pump System

- Flow rate up to 25 Litres per minute
- Includes a powder coated steel wall mounting plate making it easy to install
- 300W pump
- Mounted on a bracket that can be easily removed from tank to tank
- 6 metre delivery hose
- 1.5 metre suction hose with SEC coupling
- Nozzle holder with drip container
- IBC not included

UREA/DEF EQUIPMENT

UREA/DEF Hose Reel

MODEL DITIHL8080861727

- Stainless steel full flow swivel, Viton made seals and EPDM hose designed to transfer UREA/DEF perfectly as well as diesel fuel
- Heavy gauge steel frame includes dramatically flanged edges and stiffening ribs for lighter weight, stronger components for ease of installation
- Inlet/Outlet: 3/4", Hose I.D.:3/4"
- Hose Length: 26ft/8M
- Working Pressure: 300PSI / 20BAR

UREA/DEF Double Diaphragm Pump

MODEL DIT117050601V

- Air operated diaphragm pump, ideal to transfer high volumes of UREA/DEF (AUS32) from drums or tanks
- Also suitable for transferring water-based chemicals, acid and alkaline solutions
- Heavy duty plastic construction with ground capability to eliminate static discharge
- Viton seals
- Maximum diameter solid: 1/8"
- Comes with 1/2" reducer, if used the flow rate will reduce to 45 LPM

MODEL	Flow Rate	Max Pressure	Inlet/Outlet	Air Inlet
DIT117150601V	60 LPM	115psi	3/4"	1/4"

UREA/DEF Inline Flow Meter

MODEL DITI15221005

- Easy to install either in line or at the end of the delivery hose
- High flow rate up to 100 Litres per minute
- Inlet/Outlet: 1" BSP
- Easy to read LCD display
- Measures in litre, gallon, pint and quart
- Simple, reliable, compact & economical
- Adjustable calibration

UREA/DEF Manual Nozzle

MODEL DITI18311006

- Adaptable to electric pump and gravity flow tank
- Plastic nozzle with stainless steel spout
- Flow rate: 16GPM / 60LPM
- Inlet: 3/4"
- Ideal for UREA/DEF dispensing

UREA/DEF Automatic Nozzle

MODEL DITI18311009

- Lightweight nozzle made from high quality plastic
- Automatic shut off nozzle
- Flow rate: 2 - 14GPM / 8 - 50LPM
- Inlet: 3/4"
- Diameter of spout: 3/4"
- Stainless steel spout
- Ideal for UREA/DEF dispensing

UREA/DEF Stainless Steel Automatic Nozzle

MODEL DITI18311008

- Stainless steel structure with viton seal
- Automatic shut-off nozzle
- Flow rate: 2 - 14GPM / 8 - 50LPM
- Inlet: 3/4"
- Diameter of spout: 3/4"
- Ideal for UREA/DEF dispensing

205 Litre UREA/DEF Lever Pump

- Suitable for (AUS32)
- Lightweight and economical
- Suction tube suitable for 60 and 205 litre drums
- DJPP200RP - 2" bung adaptor
- DJPPS200LP - 2" thread

MODEL	DJPP200RP	DJPPS200LP
Action Type	Rotary	Lever
Revolutions / Strokes per litre	3	4
Suction Tube	3 piece	2 piece
Construction	Polypropylene	Polypropylene (S/S Shaft)
Suitable for	, acid, alkaline, hydraulic oil	, water-based chemicals, acid, alkaline & hydraulic oil

UREA/DEF Rubber Hose

- EPDM rubber hose
- Inner Dimension: 3/4"
- Hose Length: 6 metres

MODEL DITI19136407

UREA/DEF IBCKIT Suction Tube Assembly

- Suitable for UREA/DEF
- 108mm in length
- I.D 25mm
- Connects with SEC Connection (MODEL DITI17940040)

MODEL DITI17940042

UREA/DEF SEC Connection

- Suction connection
- 2" BSP Thread
- 1" Barb

MODEL DITI17940040

Grease Guns

360° Pistol Grip Air Grease Gun

MODEL DG508CL

- Continuous flow air grease gun
- 450 gram cartridge
- 360° angle free rotating design for added flexibility to get to any grease fitting
- Working pressure 6000psi
- Heavy duty construction
- Comes with 250mm flexible outlet hose
- Air bleeder valve & bulk fill valve
- 4 jaw coupler
- Butterfly lock screw for a secure grip handle

18 Volt Grease Gun

MODEL DG83231

- 240 volt charger to 18 volt DC with 1 hour fast charge
- Heavy duty construction
- 450 gram cartridge & bulk fill
- Working pressure 9500psi
- Comes with 1 metre high pressure flexible hose
- 4 jaw coupler and grip support on nipple end
- Supplied with extra battery & robust carry case
- Carry strap

20kg Grease Gun Bulk Filler

MODEL DG93411

- 20kg grease pump
- Suitable for bulk filling of manual or electric hand grease guns
- Fast, reload grease guns in less than a minute
- Durable cast aluminium alloy pump outlet body
- Nipple allows bulk fill to valves with diameters of 9mm and 12.5mm
- Rubber follower plate

Grease Units

2.5kg and 20kg Grease Unit

- Ideal when lubricating equipment frequently or in bulk amounts
- 360° swivel at hand piece end
- DG9811, DG9812 - Easy 2 setting hand piece for high pressure and high volume
- DROX001 - Detachable hand piece

DG9812

DG9811

4 jaw coupler	Yes	Yes	3 jaw coupler
Detachable hand piece	-	-	Yes

Grease Control Gun

Digital Grease Control Valve

MODEL DIT18213010

- Positive control of high pressure lubricants
- Measures in millilitre, litre, gallon and kilogram
- 4 digit easy to read display with low battery indicator
- Powered by 2 x AA battery (1.5V x 2)

MODEL	DIT18213010
Inlet connection	1/4" BSP
Maximum pressure	9000psi
Precision	±2%

GREASE EQUIPMENT

10:1 High Volume Air Operated Grease Pump

- High volume grease pump for use over short distances
- Suitable for 180kg drums
- Working pressure 1,160psi
- Flow rate of 10kg per minute
- Diameter of suction tube 55mm
- Suction tube length 950mm
- Can be supplied with follower plate (DO80684) and drum lid (DO80580)

MODEL	DO81882
Drum application	180kg
Pressure ratio	10:1
Working pressure	1,160psi
Max flow rate (per min)	10kg
Air inlet connection	1/4" BSP Female
Fluid connection	1/4" BSP Male
Follower plate (supplied seperately)	DO80684
Drum lid (supplied seperately)	DO80580

Air Operated Grease Pumps

50:1 Air Operated Grease Pump

- Double action pump for high pressure grease dispensing
- For dispensing grease of all types short and long distances at high pressure
- Non-corrosive design for long life
- Compatible with integrated lubrication systems
- Compatible with different sizes of grease drums in the market

Air Operated Grease Pumps

20kg, 60kg & 180kg Air Operated Grease Kits

- The most economical & complete combination for dispensing grease
- Complete set of fluid transfer accessories gives the end user a trouble-free using experience
- Standard model includes 50:1 pump, trolley, follower plate and drum cover, connection hose, 'Z' swivel and control gun
- DIT11700512 can be used for 16 Kg plastic pails, will need to order additional follower plate (DJL4321KIT) with diameter of 285mm

Grease Accessories

Standard Grease Drum Covers & Follower Plates

- The drum cover keeps dust and impurities from contaminating the grease
- Keeps the pump in a vertical position for optimum operation
- Lightweight & easy to install
- The follower plate is indispensable when using heavy grease, it is pulled toward the bottom of the drum by the vacuum that is created by the pump
- Follower plates to fit pumps with various sized suction tube diameters are available
- DJL4321KIT comes with 4 central sleeve options to suit different suction tube diameters (1", 1 1/8", 1 1/4", 1 3/8") and removal of sleeve will allow pump diameter of 38.6mm

Grease Drum Cover

MODEL DO80580

- Drum cover keeps dust and impurities from contaminating the grease
- Keeps the pump in the vertical position for optimum operation
- Lightweight and easy to install
- Suitable for 180kg drum application
- Suitable for pump with 55mm suction tube (DO81882)
- Matching follower plate (DO80684)

Grease Follower Plate

MODEL DO80684

- The follower plate is indispensable when using heavy grease, it is pulled toward the bottom of the drum by the vacuum that is created by the pump
- Lightweight and easy to install
- Suitable for 180kg drum application
- Suitable for pump with 55mm suction tube (DO81882)
- Matching drum cover (DO80580)

GREASE EQUIPMENT

MODEL	Description
DO88450	• 4 jaw 90° coupler, ⅛" BSP female
DO88452	• Button head coupler, ⅛" BSP female, suits ⅝" button head nipples
DIT118212050	• Heavy duty grease control valve • Provides positive control of high pressure lubricants • ¼" BSP
DIT11785701	• Grease control valve, ¼" BSP female
DIT11785701H	• 18" heavy duty ¼" flexible hose with coupler, ⅛" BSP male • 5600psi working pressure SAE 100R2AT, 18000psi burst pressure • Suitable for high pressure grease pumps

Grease Accessories

GREASE EQUIPMENT

Grease Nipple Thread Tester

MODEL DITI19809100

- Great tool box accessory to sort out mixed fittings
- Aluminium construction with mounting holes
- Designed to check the following threads:
 METRIC: M6x0.75, M8x1, M10x1, M6x1, M8x1.25, M10x1.5
 UNF/ANF: 1/4", 5/16", 3/8"

Oil Drainers

Oil Drainer

- Suitable to drain waste oil by gravity from engines, gear boxes and differentials of all vehicles
- Valve fitted to collection bowl to allow inspection of drained oil before it enters reservoir
- Air operation for removal of oil from tank
- Part holding tray
- Collection bowl fitted with mesh tray
- Removal of extension funnel reduces minimum height by 100mm

Extension funnel
DITIEF10001

MODEL	DITIAOD3065E	DITIAOD3090E
Tank capacity	65 litre	90 litre
Collection bowl capacity	18 litre	18 litre
Collection bowl diameter	400mm	400mm
Draining hose length	2 metres	2 metres
Max draining pressure	14.5psi	14.5psi
Air inlet connection	¼" BSP	¼" BSP
Extension funnel diameter	DITIEF10001 - 606mm	DITIEF10001 - 606mm
Min height	1110mm	1250mm
Max height	1610mm	1950mm

Oil Drainer & Extractor Combo

- Combination 2-in-1 waste oil drainer and extractor
- Extracts oil using venturi-vacuum extracting system directly from dipstick hole
- Drain waste oil from engines, gear boxes and differentials of all vehicles
- Vacuum-charged unit is completely portable and easy to use
- Includes 6 suction probes (metal & flexible) equipped with quick-disconnect couplers for fluid extraction. Includes adaptors for BMW and Volkswagen
- Adjustable collection bowl height to work with jack lift or servicing hoist
- Collection bowl has valve to inspect drained oil
- Self-evacuating feature makes emptying clean and easy

MODEL	DITIAODE065E	DITIAODE090E
Tank capacity	65 litre	90 litre
Air pressure for vacuum	115psi	115psi
Suction rate	2 LPM	2 LPM
Drain / Suction hose length	2 metres	2 metres
Collection bowl capacity	18 litre	18 litre
Collection bowl diameter	400mm	400mm
Max draining pressure	14.5psi	14.5psi

Oil Drainers

Oil Changer

- Extract used oil and other fluids from any vehicle using this venturi-vacuum extracting system
- Great for cars, boats, motorcycles and small engines
- Vacuum-charged unit is completely portable and easy to use
- Includes 6 suction probes (metal & flexible) equipped with quick-disconnect couplers for fluid extraction. Includes adaptors for BMW and Volkswagen
- Self evacuating feature makes emptying clean and easy
- Can be used to check the quantity and quality of extracted oil immediately
- Part holding tray

MODEL	DITIAOE2065	DITIAOE2090
Tank capacity	65 litre	90 litre
Chamber capacity	8 litre	8 litre
Air pressure for vacuum	115psi	115psi
Suction rate	2 LPM	2 LPM
Suction hose length	2 metres	2 metres
Draining hose length	2 metres	2 metres
Max draining pressure	14.5psi	14.5psi
Air inlet connection	¼" BSP	¼" BSP

DITI1710002

Low level Oil Drainer

- Low-level oil drainer
- Suitable for collecting oil from engine, gear boxes and differentials of all vehicles
- Solid steel construction
- Solid swivel castors for easy movement
- Easy access to clearance outlet and suction hole provided on top
- Simply wheel under vehicle, avoids the need to carry waste oil containers around the workshop
- DITI16206561 - Equipped with 1:1 Air operated oil pump to quickly and easily remove waste oil from drainer

DITI16206561

MODEL	DITI1710002	DITI16206561
Capacity	68 litre	65 litre
Connection	¾" BSP	1:1 oil pump ½" BSP
Height	200mm	270mm
Length x width	1200mm x 625mm	800mm x 700mm
Handle length	860mm	850mm

Drum Trolleys

Oil Extractor

MODEL DITIAOE1090

- Air operated oil extractor using a venturi-vacuum extracting system
- Extract used oil and other fluids from any vehicle directly from dipstick hole
- Great for cars, boats, motorcycles and small engines
- Vacuum-charged unit is completely portable and easy to use
- Includes 6 suction probes (metal & flexible) equipped with quick-disconnect couplers for fluid extraction
- Adaptors for BMW and Volkswagen are also included
- Self evacuating feature makes emptying clean and easy
- ¼" BSP air inlet

Drum Truck Trolley

MODEL DIT119230000

- Easily move, tip, drain and store 205 litre drums
- Heavy loading capacity 150kgs
- Economy class
- With two 10" x2" wheel and two smaller 2" wheels
- Overall size: 59.8" x17.4" x24" / 1520x440x610mm
- Weight 25kgs

Drum Truck Trolley

MODEL DDH105

- 60 and 205 litre drum truck
- Heavy duty construction
- Specifically designed for lifting heavy drums
- Safety latch holds drum in place
- Easy movement with rubber tyre ball bearing wheels

Eze Lift Drum Trolley

MODEL DDH106

- 4T4-Eze lift trolley
- Trolley placed around drum and fixes to top of drum, with push off handle drum locks in place
- Approved by Department of Labour and Industry
- Easy action eliminates back injury
- Strong construction and durable finish

Drum Trolleys

Drum Trolley

- Sturdy drum trolley
- Makes moving oil and grease drums easier
- Suitable for different shapes of drums
- 2 high quality wheels and castors respectively
- DD41111 - Pneumatic front tyres with rear swivel wheel and locking brake
- DD41111 - Chain to secure drum and anti-tilt feet fitted to trolley

Drum Trolleys/Spill Containment

Drum Dolly

- Makes moving drums easier
- Fitted with quality castors to facilitate easy movement
- Gives mobility to filled drums and converts empty drums to mobile containers
- Welds ground smooth for snag free performance

DITISC0509

DITISC0506

MODEL	DITISC0509	DITISC0506
Drum capacity	20 litre	205 litre

Tilting Drum Trolley

MODEL DDH104

- 205 litre tilting drum stand
- Enables drum to be loaded and transported easily by one person
- Handles retract when drum placed in horizontal position
- Plastic grips on handles prevent slipping when drum being loaded or moved

Spill Containment Pallet

- Holding tank capacity 210 litres (2 Drum), 200 litres (4 Drum)
- Zinc plated steel grate
- Fork lift leg raisers
- 2 Drum 825mm x 1250mm x 345mm (500 kg loading capacity)
- 4 Drum 1330mm x 1330mm x 240mm (1000 kg loading capacity)

DIT116222091, DIT116222093

Spill Containment

Modular Spill Containment Pallet

MODEL DITI1788001

- Strong and durable polyethylene construction
- Easily connect multiple drum pallets to make a customised drum storage platform, 4 drum, 6 drum etc.
- Lightweight for easy transportation and positioning
- Each unit is supplied with 1 x Triangle (DT0004) & 1 x Tetrapod (DT0003) modular cover to contain fluids between pallets when connecting 2 or more containment pallets together

MODEL DIT1788001

- Air operated bleeding device for hydraulic brakes and clutches of all motor vehicles
- Six types of plugs equipped to suit Audi, BMW, Citron, Ford, Jaguar, Mercedes Benz, Peugeot, Porche, Renault, Saab, Volkswagen, Volvo
- Reserve air tank enables constant pressure for several bleeding operations without further recharges
- Convenient, easy to operate and safe
- 1 funnels, 2 bottles with connecting hose and 3 metres of hose
- Tool tray and carry handle
- For ABS set at 1 bar maximum

MODEL	DIT1788001
Fluid reservoir capacity (upper chamber)	6 litre
Reservoir air tank (low chamber)	7 litre
Max working pressure (middle chamber)	30psi
Max pressure reserve reservoir (low chamber)	145psi
Delivery hose length	3 metres
Safety valve	145psi
Air inlet connection	¼" BSP

IBC Bund

IBC Bund

MODEL DOT7588

- Bund from glass fibre reinforced plastic and galvanized steel grating for IBC container
- The practical storage and filling station for water-polluting and inflammable liquids with a flash point >55°C and general construction inspection approval
- Universal applicable for waste oil, solvents and acids
- 100% corrosion-resistant
- Can holder not included
- IBC Tank not included
- Base pallet (Model DOT7591) shown is not included, however can be ordered as a separate component

Base Pallet
DOT7591

MODEL	DOT7588
Volume capacity	1000 litre
Loading capacity	1600 kg
Weight of bund	93 kg
Dimension of bund (l x w x h)	1620mm x 1190mm x 910mm
Base pallet ground clearance (DOT7591)	90mm
Base pallet ground weight (DOT7591)	25 kg

IBC Bund (PE) with Perforated Plate

MODEL DOT8582

- Manufactured from high quality polyethylene
- High resistance to chemicals
- 1100 Litre capacity
- Loading capacity 2000Kg
- Weight 105Kg
- External dimensions 145cm x 145cm x 100cm
- Forklift accessible

Storage Tank & Gantry System

Double Skin Storage Tank

DOT7380

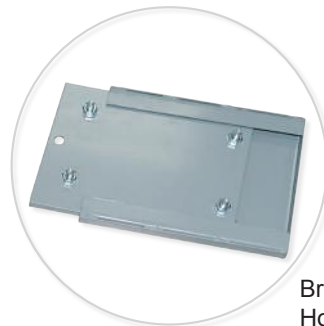

- Inner tank made of HDPE
- Outer tank zinc coated steel sheet
- Suitable for clean and waste oils
- Filling level indicator
- Visual leakage indicator
- Integrated carry handles
- No bunding required
- For clean or waste oils

MODEL	DOT7979	DOT7379	DOT7380	DOT7881
Tank capacity	400 litre	750 litre	1000 litre	1500 litre
Dimensions (L x W x H)	730mm x 700mm x 117mm	980mm x 770mm x 1420mm	1280mm x 770mm x 1420mm	1630mm x 770mm x 1850mm
Weight	50 kg	66 kg	89 kg	151 kg

Service Column 3 Reel Gantry

MODEL DITI29992009

- The gantry can hold up to 3 hose reels including the: (860 Series or 2950 Series)
- The maximum number of drip trays that can be mounted on the gantry are 3 pieces, which are optional
- One oil pump can also be mounted to the gantry
- Unit provides adequate space for oil drums under the hose reels
- Eliminates the expense of installing piping systems
- Size: 70"Wx"39"Dx93"L (1770x1000x2370mm)
- Does not include air operated pump, hose reels, drip trays or oil control guns

Bracket used to support
Hose Reels

Workshop Accessories

Oil Drainer Extension Funnel

MODEL DITIEF10001

- Extension funnel for waste oil drainer & changer collection bowls
- Funnel diameter 600mm
- Makes it easier to position and capture fluid from engine crankcases, gearboxes, etc.
- To suit 400mm diameter collection bowls on drainers

Drum Lid

MODEL DDH109

- Drum pal – protective drum lid
- Reusable drum lid, allows storage of drums outside and prevents damage caused by rust, dirt and moisture
- Excellent resistance to most chemicals and acids
- Innumerable reuses so that each use amounts to cents in cost

Oil Drum Lever Meter

MODEL DG116308

- Suitable for 205 litre drums
- Fits standard 3/4" bung opening
- Allows for simple stock-keeping
- Can be personalised - telephone number and logo can be put onto meters' face
- Protection against loss as each tapping will become immediately visible
- Longevity and robustness - resistant against oils and benzine
- Ease of installation - it can always be reused

Drum Level Gauge

MODEL DITI19800701

- Suitable for 205 litre drums
- Fits standard 3/4" and 2" bung openings
- Allows for simple stock-keeping
- Ease of installation and can be reused
- Strong durable made from polypropylene and ABS with a Kevlar line

Replacement Parts

Anti-drip Spout

MODEL CB261

- Anti drip spout
- Fits 12mm hose only
- For pumps CA465, CA467

ATF Anti-drip Spout

MODEL CB262

- Anti drip spout, filter and 12mm hose connector
- For pumps CA465 ATF, CA467 ATF

ATF Filter

MODEL CB271

- Automatic transmission fluid filter – Supplied as replacement item
- For Pumps CA465ATF, CA467ATF, CA480ATF, CA469ATF, CA490ATF

ATF Lever Nozzle

MODEL CB272ATF

- Lever operated nozzle supplied with automatic transmission fluid filter and 16mm hose connector
- For Pump CA480ATF, CA469ATF

Air Regulators & Lubricators

Lever Nozzle

MODEL CB272

- Lever operated nozzle supplied with 16mm hose connector
- For Pump: CA480G, CA469G

Air Filter / Regulator / Lubricator

MODEL DITIBC2000

- Air filter, regulator, gauge and lubricator
- For use with air operated pumps
- Complete kit
- Lubricator ensures air motor operates at premium efficiency
- Recommended for use with all air operated pumps
- 1/4" BSP threads
- Safety protective metal casing

Air Regulator

MODEL DITIBR2000

- Air regulator and gauge
- Regulates the air flow into the pump
- Gauge gives accurate read out of air flow into the pump
- 1/4" BSP threads

Air Filter / Regulator

MODEL DITIBFR2000

- Air regulator filter
- Regulates and filters the air flow into the pump
- Gauge gives accurate read out of air flow into the pump
- 1/4" BSP threads
- Safety protective metal casing

Lubricator

MODEL DITIBL2000

- Lubricator ensures air motor operates at premium efficiency
- Easy adjustment of oil drip
- 1/4" BSP threads
- Safety protective metal casing

Metal Drum Tap

MODEL DJL5314

- 3/4" (20mm) self closing drum faucet
- Strong metal construction
- Nylon valve head to suit petroleum products
- Can be locked with padlock

Drum Tap for Heavy Fluids

MODEL DJL5319

- Great for dispersing high volumes of oil and other heavy fluids directly from the drum
- Cast iron body & brass faceplate and spring for perfect seal
- 2" thread (50mm thread)
- Can be locked with padlock

Heavy Duty Water Tap

MODEL DJL3111

- Water dispensing tap, fill radiators, windshield washer fluid etc
- 1/2" BSP thread

Adaptors

Plastic Tap

MODEL DB201

- 2" BSP lever plastic tap

205lt Plastic Adaptor

MODEL DB204

- 2" BSP Mauser Adaptor (56mm x 4mm)
- For plastic 205 litre drums
- Suitable for UREA/DEF
- Colour: White

Plastic Adaptors

- 205 Litre drum thread adaptors
- Used where threads need to be converted to a 2 inch BSP thread to facilitate the use of different pumps and taps
- Various sizes available

MODELS	SPECIFICATIONS
DJL3401	2"BSP Female to 2" Male TRISURE
DJL3402	2"BSP Female to 2" Male MAUSER
DJL3403	2"BSP Female to DIN 61 Female
DJL3404	2"BSP Female to 59mm Female TOURNEX
DJL3405	2"BSP Female to DIN 51 Female
DJL3406	2"BSP Female to 63mm Female
DJL3407	2"BSP Female to DIN 71 Female
DJL3408	G2" AUF Female to S64 x 4 Male
DJL3409	G2" AUF Female to S70 x 6 Male with Viton Seal

Adaptors

IBC Adaptors

- Connect 1" and 2" hoses to an IBC container with 60mm outlet
- The "nut" turns without the shank turning
- Shutz thread.

MODEL	SPECIFICATIONS
DJL3410	IBC Adaptor 60mm Female x 6 to 1" Barb Tail
DJL3412	IBC Adaptor 60mm Female x 6 to 2" Barb Tail

Adaptors with Locking Screw

- Enables movement of pipe or hose in drum or container before being locked tight
- Measurements for the internal diameter are taken when the adapter is locked (closed). For example the DJL3421-1 has an internal diameter of 36mm when locked. Before it is locked the internal diameter is 37mm.

MODEL	SPECIFICATIONS
DJL3421-1	2" Male & ID 1&1/2" (36MM) with Locking Screw
DJL3421-2	2" Male & ID 1.57" (40MM) with Locking Screw

IBC Mauser Adaptor

MODEL DJ3402

- 2" BSP to 2" Mauser thread

Pump Suction Extension Adaptor

MODEL DR70011940AD

- Pump suction extension adaptor
- Suitable for DR70011940 oil pump
- O.D - M26 x 1.5
- I.D - M30 x 1

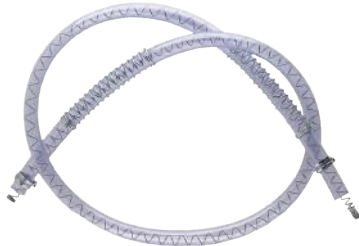

Hose Kits

12mm Hose Kit

MODEL CB465H

- 20 Litre oil pump hose
- 1.5 metres of clear PVC hose 12mm hose
- Comes reinforced with internal spring
- Hose clips provided

16mm Hose Kit

MODEL CB469H

- 60 Litre pump hose
- 1.5 metres of clear PVC 16mm hose
- Comes reinforced with internal springs
- Hose clips provided

Fuel Resistant Hose Kit

MODEL DA01JW214H

- Rotary pump hose – fuel resistant
- 2 metres of zero temperature hose 25mm I.D.
- Rigid metal spout
- Hose clips provided
- Suitable for DA01JW214 & DA02LP32

25mm Diesel Hose

MODEL DHZ25

- Zero temperature farm hose
- Australian made fuel hose
- Black PVC - abrasion, weather and ozone resistant
- Suitable for petrol, oil, kerosene, and diesel
- Available in 20 meter rolls
- 25mm I.D.

Drum Spanners

Hose Nozzle

MODEL DJIS1

- Spout suitable for diesel and unleaded petrol
- Aluminium construction
- Can be used with 1" I.D. hose
- Suitable for hand pumps

Drum Spanner

MODEL DB31

- Drum spanner
- Suits 2" & ¾" drum fittings
- Provides easy drum opening
- Moulded from engineering plastic resin

Diecast Drum Spanner

MODEL DJL4021

- Fits most metal and plastic 205 litre drums
- Opens both 2" (50mm) and ¾" (20mm) bungs
- Easy Action
- Strong diecast construction, will not break or chip

Multi Purpose Drum Spanner

MODEL DJL40211

- Fits all metal and plastic 205 litre drums
- Opens both 2" (50mm) and ¾" (20mm) bungs
- Easy Action
- Strong metal construction

Oil Jugs

Oil Jug

- Plastic measuring jug
- Comes with protection lid and flexible outlet
- Made from high class polypropylene
- White in colour
- Calibration gauge in litre and quarts

MODEL	DAM3320027	DAM3320058
Litre	2 litre	5 litre

Oil Bottle

MODEL DB100

- 1 Litre plastic oil bottle
- Verified Oil Bottles for driveway use
- Made from non-breakable, ultra violet and impact resistant material
- Comes with pourer and cap
- Calibration gauge in ml showing 250, 500, 750 and 1000

Fuel

Oil

UREA/DEF

Grease

Farm Tank Equipment

Long Spout Water Nozzle

MODEL DKSKW9151L

- Water nozzle with 7.5mm diameter outlet for concentrated pressure
- Solid diecast construction
- Brass swivel
- 1" BSP female inlet
- Ideal for concrete trucks or for wash down applications
- Also available Short Spout Water Nozzle - DKSKW9151S

Short Spout Water Nozzle

MODEL DMAJ50AS

- Water nozzle with 7.5mm diameter outlet for concentrated pressure
- Solid diecast construction
- 1" BSP female inlet
- Ideal for concrete trucks or for wash down applications

Filter / Gate Valve Unit

MODEL DS102V

- Combination filter and gate valve unit
- Comes with removable brass mesh filter cartridge
- 1" BSP threaded inlet
- 1" barbed outlet

Air Vent

MODEL DS105

- Air vent
- Aluminium construction and fitted with brass mesh filter
- 1" BSP threaded inlet
- Suits most fuel tanks

Farm Tank Equipment

Locking Cap

MODEL DS109

- Locking cap
- 2" aluminium locking cap

Line Filter

MODEL DS104

- Line filter
- 25mm 'Y' type line filter
- Removable brass gauze filter
- 1" BSP thread

Hose Tail

MODEL DBN2525

- 25mm hose tail
- Diecast hose tail
- 1" BSP thread

Nipple

MODEL DBN25

- Hex nipple
- 25mm galvanised hex nipple
- 1" BSP thread

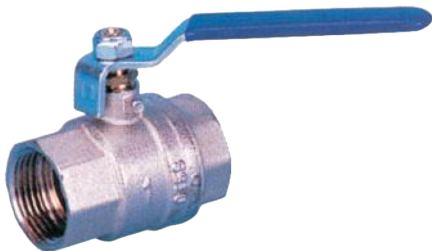

Elbows

PVC Hose & Hose Clamps

PVC Hose

- Reinforced transparent PVC hose
- Where application requires longer hose between suction tube and pump

MODEL	Hose I.D
DITIPVC19	ø19mm
DITIPVC25	ø25mm
DITIPVC32	ø32mm

Suction Pipe

MODEL CB285-6

- P.V.C. Inlet pipe fittings for use with air operated transfer pump
- Faucet socket 1" BSP suction pipe 25mm

Hose Clamps

- Clamps made from zinc plated mild steel (Stainless steel also available Contact STM)

- We have set-up each account customer with online access where you can view buy and sell prices, get instant quotes, order online quickly and easily without having to pick up the phone and have access to our online special deals 24/7

Features

- ▶ Browse our entire range of products
- ▶ Place orders
- ▶ View & re-order past orders
- ▶ Check stock availability
- ▶ View buy price and recommended selling prices
- ▶ Receive online special
- ▶ and more..

• Webstore only available to approved account customer

The screenshot shows the STM Australia Pty. Ltd. website interface. At the top, there is a navigation bar with categories: HOME, HAND PUMPS, OIL TRANSFER EQUIPMENT, FUEL TRANSFER EQUIPMENT, UREA/DEF EQUIPMENT, GREASE EQUIPMENT, WORKSHOP EQUIPMENT, ANCILLARY EQUIPMENT, CLEARANCE ITEMS, and SALES. A search bar is located in the center, and a shopping cart icon shows 'Cart (1) AU\$ 10.00'. Below the navigation bar, there is a large banner for 'Lubrication Dispensing Equipment Specialist' featuring a close-up of a gear pump. To the right of the banner are three promotional boxes: 'Tooling Equipment', 'STM NEWS', and a 'SALE' sign. Below the banner, there are three featured articles from November 2014: 'Featured Article: The Beginning of the STM News Channel', 'Featured Product: No.1 20Lt Gear Oil Pump - CA465G2', and 'Website Launch: www.stm.net.au Launch'. At the bottom, there is a row of six product listings with images and prices: 20 Litre Gear Oil Pump (AU\$22.50), 1 Litre Tom Thumb Oil... (AU\$10.90), 205 Litre Heavy Duty ... (AU\$58.00), Smart 4-In-1 Grease ... (AU\$46.00), 450 Gram Lever Oper... (AU\$19.40), and 450 Gram Heavy Duty... (AU\$42.00).

Terms & Conditions

Warranty

STM Australia offers a minimum 12 month warranty to all products from date of purchase. The warranty applies to faulty material and workmanship. It does not apply to damage caused either accidentally or deliberately to the goods.

Return of Goods

STM Australia will not accept the return of any goods without a member of our staff being notified and approval given for the items to be returned. All goods returned will be at the expense of the sender unless otherwise instructed by a STM Australia staff member. STM Australia will not accept any freight charges for goods returned unless authorized. If goods are returned for any reason other than a warranty claim a handling fee may be charged.

Freight

Freight is F.O.B. All goods will be dispatched by STM Australia via our preferred freight company unless otherwise advised. The goods will generally be sent via road transport, subject to the size of the goods. Stock will be dispatched from our Melbourne, Perth, Brisbane or Auckland warehouses. STM Australia will always endeavour to keep freight charges to a minimum.

Goods Dispatch

STM Australia will endeavour to dispatch all orders received before midday on the same day. Orders received after midday will be dispatched the following working day. If any goods are out of stock at the time of dispatch they will be placed on backorder and you will be contacted to make alternative arrangements.

Product Specifications

STM Australia reserves the right to alter product specifications or withdraw products at any time without prior notice. Due to the printing process, colours may vary slightly to the actual item.
